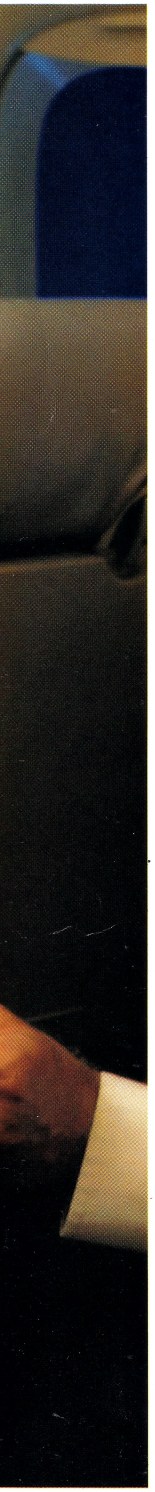
T1000SE

Portable Personal Computer

Toshiba T1000SE.

The Perfect Traveling C



The exciting new T1000SE is Toshiba's smallest and lightest portable PC ever, weighing just 5.9 pounds and measuring a mere 1.78″ thick. Here's the ideal computer to bring along on your travels so you can take care of business any place and any time you choose.

Compare portables, and you'll quickly see that the T1000SE puts you well in front of the competition. In fact, thanks to its exceptional functionality, the feature-rich T1000SE sets new standards in notebook PCs. Toshiba's uncompromising small computer incorporates a 9.54MHz 80C86 microprocessor, 1MB RAM expandable to 3MB, built-in 3.5″ 1.44MB high density floppy disk drive, HardRAM– Toshiba's battery-backed RAM disk, backlit CGA 640 x 400 supertwist display *and* advanced battery management features.

Particularly important, the T1000SE's industry-standard floppy disk drive avoids all the problems with non-standard media. Since the drive reads and writes to both the 1.44MB and 720KB formats, swapping data on disks is simple.

Advanced human engineering features abound. For instance, the sculptured keyboard has a familiar layout and full-travel keys that feel just right. As a further aid to computing ease, the crisp backlit screen that measures nine inches diagonally is exceptionally easy to read.

For longer, useful battery life, you can set the backlit display to shut down after a specified time of keyboard inactivity. Because of Toshiba's special AutoResume™ feature, the compact, removable

New Freedom. This slim 5.9-pound portable is a traveler's delight, providing a battery-backed RAM disk that holds large applications and data files for instant access. MS-DOS is factory-installed in ROM, so you won't need an extra disk, and convenient hypertext puts documentation on floppies, so you won't have to tote any manuals.

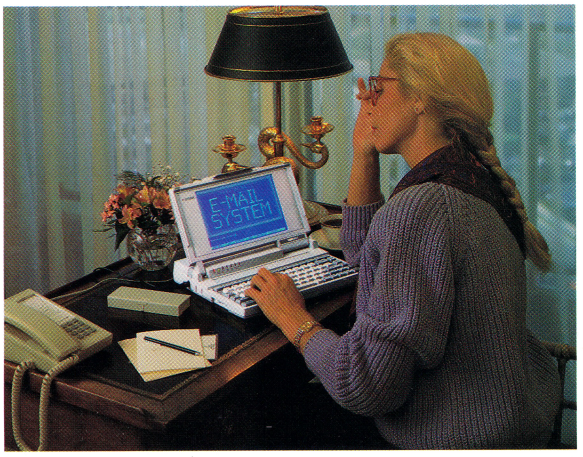
Toshiba T1000SE.

Companion.

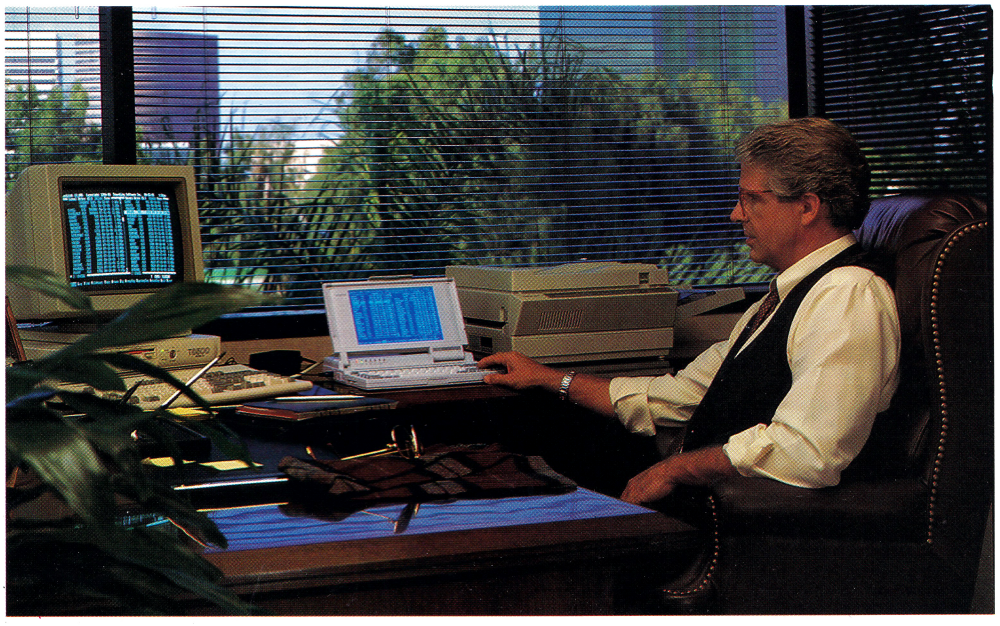
battery pack can be easily replaced without leaving the application. And the battery pack recharges quickly when the computer is turned off.

Best of all, the T1000SE is built and backed by Toshiba, the technology leader in portable computers. We're known for extraordinary support of our PC users, with such services as a toll-free number you can call for questions about operation or service. The T1000SE carries a year-long limited warranty with no-cost Exceptional Care enrollment during this period. Additionally, your T1000SE is fully supported by Toshiba and its strong network of ProCare Authorized Service Providers.

With all it has to offer, the T1000SE is surprisingly affordable. Put its power to work for you in a hands-on demonstration, and you'll want to have the T1000SE with you on all your travels. For the name of your nearest dealer, call toll-free at 1-800-457-7777.



Self-Contained Portability. Now you can work efficiently anywhere, staying in touch with your office via an optional internal modem. Thanks to its large backlit display, small footprint and slim-line battery packs, you can comfortably use your T1000SE in your hotel room and even on an airline table.



A Compatible Solution! By utilizing industry-standard 3.5" diskettes, the T1000SE can easily exchange files with most office PCs. Optional accessories, like Lap-Link Plus, make file transfer easy and efficient since you can download directly from your T1000SE to your desktop's hard drive.

T1000SE
